

Fags, The "List"

Visit "[List](#)" on MotoLyrics.com

I sat down to write a list of every girl I ever kissed.
I couldn't remember them all.
I guess it's a case of selective recall.
So I sat down to write a list of every girl I ever missed.
I couldn't come up complete.
Not all of the names would fit on the sheet.
When I sat down to put a name on the page,
you were always on the first line.
You're the only girl I want to be with one more time.
I sat down to write a list of every girl I ever pissed off.
I couldn't remember them all.
I guess it's a case of selective recall.
So I sat down to write a list of every girl I ever missed.
I couldn't come up complete.
Not all of the names would fit on the sheet.
When I sat down to put a name on the page,
you were always on the first line.
You're the only girl I want to be with one more time.
Be with you one more time.
