Never really thought that I would get to this today
I really didn't know if I should say what I should say
But i got this feelin' that your feelin' all these things I
wanna show
I put it in this song to let you know...

I think I like you
And if you got some time to spare I was
thinkin' we could fall in love
I want to let you in
Are you willin' to catch my fall if I
happend to just fall for you

My love for you
grows stronger everyday
So much deeper
So crazy in ways I can't explain
I've been waitin' for the day to call you mine
I was thinkin' we could fall in love

Do what you want as long as you with me
Say what you want as long as I hear you callin' my
name
over and over again
Oh
Take what you want as long as you take me
Love me for real
I promise you'll hear me callin' you'r name
Over and over again

I'm just searchin'
Searchin' for the truth
All I know is my heart belongs to you

Im not in this
just for the honeymoon
But oh way
waaay

Do what you want as long as you with me
Say what you want as long as I hear you callin' my

name
Over and over again
Oh take what you want as long as you take me
Love me for real
I'll promise you hear me callin' you'r name
over and over again

I know I'm fallin'
And I just might never give up so I
guess i will be here to stay

You're breakin' my walls and you takin' my heart
There's nothing I can do but fall apart for you
and baby that's cool

Do what you want as long as you with me
Say what you want as long as I hear you callin' my
name
Over and over again
Oh take what you want as long as you take me
Love me for real
I'll promise you hear me callin' you'r name
over and over again

(And over again)
say what you want
Callin' my name
Over and over again

take what you want
(as long as you take me)
Love me for real
(I'll promise you hear me callin' you'r name
over and over again)
