It floats a bewildered child  
They boast of having abused a mere child  
With their fishy machines  
They did it. They did it with force  
They did it with cold contempt  
"Come a bit closer"  
Now get raped, sucker, feel your own  
Prick sodomizing your holes  
Now you mention the term mercy ?!  
Get out get out  
Get out your slimy sting  
Get it out  
Of course no remorse

Rude hands take what they can don't they  
You call that love ?  
Why the heck do you all smile ?  
Face this frantic reality  
Ruled by oppression  
Free the ones oppressed !  
hey shrug and they sigh  
"This world's not as strange as you like to describe it"  
Indifferent smiles  
Don't make me puke and scream
