Silver lady in the night with a passion burning bright

She walked into my dreams  
I had to love her so.  
I knew instinctively that she was the one for me

We touched  
it seemed  
no longer strangers in the night.

I didn't know your name but it seemed that you needed  
company  
yeah

Her kisses toched my soul  
we felt the magic

But she turned away and said she had to go.

Cinderella  
cinderella  
why'd you leave the dance  
When the night has just begun?  
Cinderella  
Cinderella  
why'd you love the chance

Won't you stay with me  
won't you stay for one last dance?

I know she wanted me  
she had to go immediately

Could take that chance now  
I could never let her go.  
She said she's call next day  
but a night's too long to wait

Aching in my heart  
I had ti hold her in my arms.

I didn't know your name but it seemed that you needed  
company  
yeah

A tender moment that touched me so

I cried: Don't hurt me now  
oh baby  
please  
don't go!

Cinderella  
Cinderella  
why'd you leave the dance...

Cinderella - Cinderella - Cinderella - Rockafella.

I didn't know your name but it seemed that you needed  
company  
yeah

...  
Cinderella  
Cinderella  
why'd you leave the dance...  
Cinderella  
Cinderella  
why'd you leave the dance...  
Cinderella; Cinderella  
why'd you leave the dance...  
Cinderella  
Cinderella  
why'd you leave the dance...
