Catch a falling star and tell me you love me

Say you love me  
tell me you love me.  
Hold it in your hand and say that you need me

the words I wanna hear.  
Loneliness a road I left far behind me

far behind me  
so far behind me  
Happiness comes in my life if you want me

so give it all to me.

Do you wanna stay  
my love  
do you wanna stay  
my love

Underneath the stars above?  
Santa Lucia by night -  
romantic feelings under the starry light.  
No more worries  
no more troubles to care

It's love that we share  
it's love that we share.  
Santa Lucia by night -  
sail on the wings of love when you hold me tight  
There's a place for you and I in this time

If you will be mine  
if you will be mine.

Come and sing this happy melody

Sing it with your soul  
it makes you free.  
Listen to the music of your heart

In the Italian night we can be alright.

Santa Lucia by night -  
romantic feelings under the starry light.  
No more worries  
no more troubles to care

It's love that we share  
it's love that we share.

Catch a falling star and tell me you love me

Do you wanna stay  
my love  
do you wanna stay  
my love

...

Come and sing this happy melody

...

Santa Lucia by night -  
romantic feelings under the starry light. . . .  
No more worries  
no more troubles to care

It's love that we share  
it's love that we share.  
In the morning till the night.
