"Still"

Visit "[Still](#)" on MotoLyrics.com

There was a time when love was blind and maybe I was
blind too
I couldn't see that we were lovers I had never touched
you

I seemed so certain that we'd only ever be just good
friends
Woke up one morning I refused to let you out of my
head

And I still want you, every time I see you again?

Chorus:

I still want you
(I'm dreaming think I'm crazy, maybe you can save me
Probably 'cause you tell all the things I don't do)

I still want you
(I'm dreaming think I'm crazy, maybe you can save me
Probably 'cause you tell all the things I don't do)

Don't leave me now I'd be so lost so indigo without you
I can't survive with only memories to see me through
You're all I need, don't cross me now that I'm high
You're all I need now, you're all I need now

And still I want you, every time I see you again?

Chorus

6x:
I still, I still... everytime that I see you
