Sadat X reppin' with the O.G.C. (gun clappaz)
For my peoples throughout the PJ's got my man
Black reppin' from back in the day
X files and you know the storm
Homies loc now it's on so you've been warned
Dru Ha where you at? (yeah yeah)
O.G. Where you at?

Hurricane Starange:

Now who's the bearer of bad news on crews
When I drop the jewels on fools they say "Who?"
Give me my props before I quickly pass the Tek to
Steele
Niggas want record deals without even having skills
(Yo it's ill) How Headz still Ain't Ready
Down with the Fab 5 without the Freddy
But deadly perfect ready to wreck any
Bootcamps the best host from east to west coast
Far from fool make moves like spies in trench coats

Sadat X:

Like this like that, I'm tired of all y'all crab ass rappers
Bucktown home of the Original Gunn Clappaz
Use to be on ocean by the street empire
See my man Buckshot on Bushwick day back in 9th
On the uptown blocks of Harlem is where you'll find me
Louievill Slug the piece with the Top Dawg
Strangle that ass raise the Ruck down the block or
Leflaur Leflah if you prefer

Sean Black:

Straight Bootcamp cowboys in Duckdown
Soldiers heads creep while y'all bop to the boogie
Sound bwoy come uptown to mic check
Keep it moving sound tight so we moving in the night
Remenis me and Starange Lemonhead takin' dope
cause I was broke
And they heads was wet
Now Islam on these tracks fuckin' slangin' on them

Sadat X:

A-yo he asked for it his man saw it

So it don't mean jack to me (x2)

(Cowboy status)

Top Dawg:

So much unfairness in this game it's making me hear unclear

But making me more aware for when y'all niggas come here

The bottles on and you a gun fool for years

O.G.C. blowin' the spot with Sadat

King of the wild places you better know where you at

With your loud piece talkin' shut you mouth or keep walkin'

Sadat X:

In the BK Lin stands the Bootcamp base

On the uptown blocks is where the comboys face

To stay alive show drimve and arrive with the five

Somebody said it's war I got a boatload of niggas

Niggas from Uptown and Brooklyn original gun triggers

Clap off strap off make you baby blood wear

They always say it's calm before the big storm

Louieville:

Runnin' rampade through crews it's thee Originoo Gunn

Clapp 2

L-O-U-I-E here to bet you, no haps dude

Back up like gas we pass my tongue lash

Upon you wack math no mass well too bad for you

3-2-1 nigga never knew ya, straight to the death

Dug Out Ville Sluggah, ha I crack ass

To make crews look like "Who's that."

Fantastic like Boombastic Sluggah let you have it

This Brownsville bastard get more tools then gadgets

But keepin' a baseball bat in stash is how I manage

Huh me no need and streets who carry sweeper

Just combine minds and set traps to catch the creeper

Hook

Starange:

So who' that with crew phat just like Menate

Large when I uncharge at all the places that I been at

Now I take 10 at a time when I rhyme

Big up East 105th with mad black and dime
I'm the eight black smoker gert neck choker
Mack by the crotch make police watch me like Oprah

Top Dawg:

Here we come flee 3 guns on the run
Brothers best to make way or you'll get done up by the
Louie
To thee wack cats I screw he
Ask if them niggas ain't up upon their juicys

Louieville:

Sittin' in my room buildin' with the most high
He game me some advice and said I was sure to share
So yo listen up we on our own you have to hide your
chrome
Cause when your pops come home he be
Lookin' for more then a bust, in God we trust
He must of been talkin' about us

Hook

Sadat X:

It't the Great X I send off to Endor
On the other side of midnight engineer get the mid

With my man Sean Bliggity this beat right here is meant

The Brooklyn Uptown united I tore down off a pint of
