He took one look at me
And he said, come on we gotta leave
And I said, not this time
I no longer believe

He left me standing there
And I knew I should no longer care
But I wanted him to turn and say he believed

I miss that feeling
I got it somewhere
I miss that feeling
But now you don't care

We do it all the time
Repair the broken line
Inside this head of mine
Won't you be so kind and help me?

This town has lost it's charm
It don't radiate or make me warm
I've felt the chilly winds come closer
Since he was gone
And on and on he goes
now it's not longer just for show
I heard it now from everyone
I know he moved on

I miss that feeling
I've got it somewhere
I miss that feeling
But now you don't care

He is the bittersweet in me
A straight connection to my knees
I may be whole, but not complete
Or so it seems
And if he's coming back someday
I hope I'll find the words to say
I'll make him stay until I believe

I miss that feeling
I've got it somewhere
I miss that feeling
But now you don't care

We do it all the time
Repair the broken line
inside this head of mine
Won't you be so kind and help me?
