"Acid Rain"

I can see the rails of gold
running along my bed
paint my eyes Im color blind
could I be you instead
I seen your first reaction when you heard the sound
dress it up and morn another deal made with the
ground
when you walk through the garden
just leave me here sleeping
dont go and try to wake me
no air but Im still breathing
Bathe me in eternal youth
that and acid rain
you want whats on my mind
and its driving you insane
you want the power trip
running through my mind
searching hard you've finally found
the land that you cant find
(chorus) (repeat first verse)
