Verse 1

Let it rain on me
washed away
my lighter days are through
let me see
across this crowded sky
to you
my dying grief
unheard these silent screams
for you
let me breathe
suffocated and laid to hated
by you

(Chorus)

dont wanna die inside you
dont let me die inside you
oh please
dont let me die inside you, again

Verse 2

all my memories
hold deep
my smile you keep for me
'cause I wont see
the life you'll live
that's taken from me
but I'm complete
no more the pain
I spread into you
so set me free
but please dont hide me dead
inside you
(repeat chorus)
(repeat 1st verse)
(repeat chorus x 2)
