M: You are the love of my life, I knew it right from the start

The moment I looked at you, you found a place in my heart

F: You are the love of my life, you give me reason to live

You taught me how to be strong. With you is where I belong

B: No one's ever touched me, quite the way you've touched me

People search a lifetime to find what we have.

F: You are the love of my life, one thing that's good in this life

B: I'll spend the rest of my days just loving you

M: You are the love of my life, the heart and soul of my life.

B: Once I was lost and alone, with you, at last, I am home

[instrumental line]

B: You give me so much of you and leave me room to be free.

B: No one's ever touched me, quite the way you've touched me

People search a lifetime to find what we have.

F: You are the love of my life, one thing that's good in this life

M: And in a world full of change, one thing I'm sure of

M: You are the love of my life,
one thing that makes sense in this life

B: I'll spend the rest of my days just loving you

M: You are the love of my life and I thank God I'm alive

B: To spend my lifetime with you, You are the love of my life.
