I agree disagree and I know this  
I agree disagree and I know this  
Three by three to make a better breed

Washed up, lose sight of everything  
Washed up, lose sight of everything

I agree disagree and I know this  
I agree disagree and I know this  
Three by three to make a better breed  
I'll fuck God in the ass and then I'll make my own army

Washed up, lose sight of everything  
Washed up, lose sight of everything

Prostate juice is overflowing me

Three by three, to make a better breed  
Three by three, to make a better breed
