I'll get you all, I'll take your world, It's time you start  
preparing for the end  
'Cause everything can make you think, but nothing  
really changes in your head  
I felt the cold and sadness from the Technicolor  
pictures that you send  
Everything is caving in and no one sees the damage  
that they bring  
(You murdered me again)  
I'll get you all, connect you all to all the things you ever  
did and said  
I'll pay you back for all the times you broke me up and  
pushed me far away  
I'm paranoid, I'm in the void, I hide myself to save me  
from your ways  
It's who you weren't, I needed most to make me feel  
the warmth in my days

And I try to get away, try to get away from everyone  
But I gotta get some, gotta get some love  
And I try to get away, try to get away from everyone  
But I gotta feel some, gotta feel something real

Can't control myself no more, I needed someone to  
find me once again  
'Cause I'm alone with no one home, the autopilot switch  
is flashing red  
The best of me, regressed in me and now I can't locate  
where it is  
Erased it all, replaced it all with all the vengeance  
made within my head  
(You murdered me again)  
I'll get you all, connect you all to all the things you ever  
did and said  
I'll pay you back for all the times you broke me up and  
pushed me far away  
I'm paranoid, I'm in the void, I hide myself to save me  
from your ways  
It's who you weren't, I needed most to make me feel  
the warmth in my days

And I try to get away, try to get away from  
everyone(Boom boom everyone)  
But I gotta get some, gotta get some love  
And I try to get away, try to get away from  
everyone(Boom boom everyone)  
But I gotta feel some, gotta feel something real

It's who you weren't...  
Now I'm at it again

You got me in a world I don't believe in  
Called out for help but you won't receive me  
And all I know is that I don't belong here  
I don't know how I ever got to be this way

You got me in a world I don't believe in  
Called out for help but you won't receive me  
And all I know is that I don't belong here  
I don't know how I ever got to be here  
You got me in a world I don't believe in  
Called out for help but you won't receive me  
I'll be the rain that comes to wash you all out  
And maybe then I'll find the warmth I used to feel

I tried to blow up the moon  
I needed something to do  
I tried to blow up the moon  
I needed someone to know

And now you're running, running, running out of waves

Oh oh I'm taking over the world  
Oh oh I'm taking over...
