So she gave me away  
All flutter and sting  
Attaching the wings oh yeah  
Half my body complete  
Restored by machine  
So sterile and clean oh yeah

Get the code out to me

Yeah, you get the feed and I'll make the beat  
Yeah, you get the stream while I make the scene  
Yeah, you'll never need to wake up and see your own  
scars  
Your life will be gone

Woke in synthetic rain  
The sun frozen dead  
The program has changed, oh yeah  
Ashes soothe as they burn  
Recoded to learn  
In symbols I speak, oh yeah

Get the code out to me

Yeah, you get the feed and I'll make the beat  
Yeah, you get the stream while I make the scene  
Yeah, you'll never need to wake up and see your own  
scars  
Your life will be gone

This surreal life that I never understand  
Must have broken wings upon your back 'cause I never  
got to feel

I'm coming down and falling from the light  
I've started breathing like you, bleeding like you  
As I just come down  
I'm sick of you now  
I tried turn you off, I tried to wake you up  
As I watch you taking over me  
Said "if you love me, you can have me..."

Your life will be gone
