Hey you

Hey you
Did you wanna get him a mind?
Did the lion get a little pride?
And I got a heart going boom boom for you
Hey you
In the morning after the show
Three clicks and you took yourself away

Hey you

By the way
Every morning after the crows dine themselves and
then fly away
I wind my heart up for the day
Oil it so that it won't break
Checking that pulse when I can't hear tocking
Don't worry babe, it's ticking now

And you're so very safe
Somewhere deep inside
Somewhere I can't find
But your life I feel it...

Echo through my life (Dorothy)
Echo through my life (Dorothy)

Hey you
If you wanna get a light high
Let Kansas get a little bright
Delight! I'll dream it too
I'd forever give you my love, I would
Try to keep you from turning to baby blue

And you're so very safe
Somewhere deep inside
Somewhere I don't know
Somewhere I can't go
But it's all around in me
I hope you feel me...

Echo through my life (Dorothy)
Echo through my life (Dorothy)
Don't take it away

Let's go through the ride, let's go through the ride
Everything you find you can keep
So take me lover, somewhere deep inside
But don't you leave me high
Don't ever go
'Cause I need to feel
I need to feel

Echoes through my life
Echoes through my life
Echoes through your life
Echoes through your life

Dear Dorothy...
