It's taken my life to find out how that energy flows
And the meaning of the spirit we hold
It's been calling us

Wait and see
It's coming through
Feel the sense you never had before
Set it free
The spirit glows
Light the way and fly and

Get me back to the way I was
The things I see will make me realize
Resist the shadow pull 'cause we don't have much time
Do you believe what I believe?

Should have been tied
To the web that tries to keep us controlled
Apathy has kept us devolved with a trauma mind

Wait and see
It's coming through
Feel the sense you never had before
Set it free
The spirit glows
Light the way with that Lyran flavour
Do you believe what I believe?

Get me back to the way I was
If you don't see I'll make you realize
Resist the shadow pull 'cause we don't have much time
The way our silver lining grows
The way our holograms evolve
And there are secrets that we hold but
Do you believe what I believe?

Do you believe what I believe?
Do you believe what I believe?
