Forget about me for a hundred million years  
Forget about me 'cause I want to disappear  
All I've seen has made me weary  
Build walls around me  
And you say I never listen

But I don't mind, I don't mind  
Got my head in the white sky  
And I don't mind, I don't mind  
Now that I'm out of here  
Now that I'm out of here

All that I wanted was a small dream catcher floating  
round in me  
All that I wanted was a small dream catcher floating  
round in me

And I don't mind, I don't mind  
Took a step through the white sky  
And I don't mind, I don't mind  
Over and out I'm fading  
Over and out my baby

All that I wanted was a small dream catcher floating  
round in me  
All that I wanted was a small dream catcher floating  
round in me  
All that I wanted was a small dream catcher floating  
round in me  
All that I wanted was a small dream catcher to catch a  
wish for me
