Every time you go away
You kind of seem to change
Always twisting out of form
I feel you just the same

I'll mark this path with stars that never fade
'Cause it's a long way home if you don't know the way

I watched you softly fade away and turn into something
new
I know I'll see you once again
Closer and beyond
Let your spirit flow
All around this endless state

In a thousand years or so
The world will still be here
All lit up with atom bombs
We'll dance around as air

But for now a new journey awaits you again
And it's a long ride out, so strap yourself right in

I watched you softly fade away and turn into something
new
I know I'll see you once again
Closer and beyond
Let your spirit flow
All around this endless state

Turn me on inside oh yeah
Turn me on through time oh yeah
