Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear for you

Every time I think about you and me  
I start to see the things that no one can see  
It's all around my head  
It's like I don't exist  
But then they call me a fallen zero  
I'm taking it to another depth  
You're pulling me back into you  
But nothing will bring me back to life

Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear when you do  
Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear for you

I've seen you reach out so far  
But nothing can take you  
It glows above your head  
Everyday  
But if the feeling remains within you  
I'll be waiting for you in another life  
Eternity flowing through you  
Together again  
Nothing will end

Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear when you do  
Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear for you

When I'm not there  
Glowing above your head

Take it to another depth  
Nothing will ever end  
Take it to another depth  
Nothing will ever end

Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear when you do  
Take me take me like I'm Indonesia  
Stars that see you when I don't need to  
Take me take me like I'm Indonesia  
Stars that seem to appear for you
