It's time to get down  
I gotta be cool  
I got no future  
So I delete it  
I got the headsounds  
Shut up and listen  
Don't wanna be bound  
I wanna die young

Base it and waste it on what you know

A little sparkle is all I need  
This follow feeling is what I feed on  
I'm like a zero  
Kind of placebo  
I have no meaning  
Treat me like a free disease if you want

Base it and waste it on what you know

Every little feeling that's been running inside of me  
Get it out of me, get it out of me, get it out  
I'm the definition for the broken generation and I'm  
Getting everything the way I wanted it to be  
Break it, smash it, fuck it, so destructive and I like it  
'Cause it's all a game to me, all a game to me, a game  
to me  
Make the world around you like you wanted it to be  
Make the world around you like you wanted it to be

I really don't care  
So fuck the system  
Don't have a reason  
Just wanna destroy  
It ain't problem  
I know I'm vacant  
A kind of headfuck  
Tear all them mutherfuckers apart

Base it and waste it on what you know

Every little feeling that's been running inside of me  
Get it out of me, get it out of me, get it out  
I'm the definition for the broken generation and I'm  
Getting everything the way I wanted it to be  
Break it, smash it, fuck it, so destructive and I like it  
'Cause it's all a game to me, all a game to me, a game  
to me  
Make the world around you like you wanted it to be  
Make the world around you like you wanted it to be

See nothing  
Hear nothing  
Feel nothing  
Fear nothing
