Hello... I'm here calling out again  
Every night I wake in a story  
For so long I've been coloring the lake  
Hoping that you'll pick up the tone

What you gonna do to find my flame?  
Weren't you gonna meet me on the sphere?  
Don't you realize that I've been here?  
Don't you realize that I've been calling?  
Every time I see the wave reverse  
I look up at the sky

And I know that you'll be here to fly us home  
And I know that you'll be here to find us all  
I'm homesick...

Hurry... I guess I feel a little sick  
The creatures here are hostile and cold  
They're so lost and they hurt each others friends  
Making things that crash and explode

What you gonna do to find my flame?  
Weren't you gonna meet me on the sphere?  
Don't you realize that I've been here?  
Don't you realize that I've been calling?  
What you gonna do about my friends?  
Don't you know it's been so long since I've been a  
believer?  
But I use memory...

And I know that you'll be here to fly us home  
And I know that you'll be here to find us all

Don't you know the way?  
'cause I've been waiting  
Don't you know the way?  
'cause I've been waiting  
I've been feeling homesick  
I've been so homesick  
I've been waiting...

And I know that you'll be here to fly us home  
And I know that you'll be here to find us all  
And I know that you'll be here to fly us home  
And I know that you'll be here though I got nothing but  
memory

You know I don't recall it  
When did I come here?  
When are you coming?  
I've been waiting  
I've been so homesick  
I've been so homesick  
I've been so...
