Bend the beauty in me  
Make love to machines  
It helps me to build my self esteem

Banged up heart never bleeds  
Can't feel it in me  
I guess that I need another

Get up get out

Discover your other  
Fix my body up with broken genes  
Discolored another  
'Cause it's all I got  
It's all I got

Safe addiction is cheap  
I'm used but I'm clean  
My T.V. will teach me how to live

Brand new reason to be  
So far out of reach  
Like secrets that no one ever knows

Get up get out

Discover your other  
Fill my body up with frozen dreams  
Discolored another  
'Cause it's all I got  
It's all I got

Get up get out get up get out  
Get up get out get up get out  
Discover your other  
'Cause it's all I got worth living for
