Poor little thing how are you?
I can't break out of my cocoon
Sleeping alone in our web
Keeping my thoughts in my head
Don't slide away
Come back and sing to me

What should I do when I don't know
How to break out of my cocoon
It's only a moment in time
It won't be for the rest of our lives
I guess that I should have noticed
But I got lost

I don't ever get to see you smile
I don't ever really mean to hurt you
I don't ever get to see you smile these days
I don't ever really mean to hurt you

So innocent and serene
Shine all the colors that you have we'll breathe together

I don't ever get to see you smile these days
I don't ever really mean to hurt you
I don't ever get to see you smile
And I'm caught in a velvet cage
But I'm trying so hard to change
