Sweeter than the
Feeling of a
Fever so now
What you want me to do?

I suck emotion with some style and some class
Got an ultra sonic gaze that can break your devotion in
two
I just been searching for a road off the map but I feel
my body breaking
as I'm going crazy

Sweeter than the
Feeling of a
Fever so now
What you want me to do?

Got every leader scratching heads in the back room
Trying to figure out the way I pick up the speed the way
that I do
I just been searching for a road off the map but I feel
my body breaking
as I'm going crazy

Just stay the way that you are
I'll take the blame for it all
Gotta feel this emotion in me
I gotta feel it...oh and the devotion

Just stay the way that you are
I'll take the blame for it all
Gotta feel this emotion in me
Been feeling like I cannot go on
But I don't wanna get off

Tell me something that I've never been told
Tell me something that'll color me gold, gold
Tell me something that I've never been told
And color me gold, color me gold, color me gold

Just stay the way that you are

I'll take the blame for it all
Gotta feel this emotion in me
I gotta feel it...oh and the devotion

Just stay the way that you are
I'll take the blame for it all
Gotta feel this emotion in me
Been feeling like I cannot go on
But I don't wanna get off

Just stay the way that you are
I'll take the blame for it all
Gotta feel this emotion in me
I gotta feel it...oh and the devotion

Just stay the way that you are
I'll take the blame for it all
Gotta feel this emotion in me
Been feeling like I cannot go on
But I don't wanna get off
