You've always been the one that shines my day
But the chemicals that held us close have changed
It's all I think about now I know you're safe
And I know I'll never get to see your eyes light up like
diamonds again

The smallest light it leads you out
The smallest light it leads you out

I never thought our make belief could break
Now your single tear seeps in and floods my brain
I saw you talking warning but I didn't hear a word that
you said
So forgive me for the signals that were blocked out as I
opened the cage

The smallest light it leads you out
The smallest light
The smallest light it leads you out
The smallest light

Why's love so beautiful but so cruel?

Say goodbye
Say goodbye
Would you notice?
Say goodbye
Say goodbye
While you fade out
Sit and think of all the things I couldn't do...for you

We've known it
We've known from the moment we met that we'd...

Say goodbye
Say goodbye
Would you notice?
Say goodbye
Say goodbye

While you fade out
Sit and think of all the things I couldn't do
It's all I can do...
