Started to feel bad when nothing but shit turned me on
I'm in the middle of it, stuck in the middle of it
Want to pray but there's no one upstairs there today
Gone out for groceries, out buying birds and bees

I am never gonna let you know
What's wrong with me internally
I am never gonna let you know
What's wrong with me mentally

How you're supposed to feel (my libido singing)
How you're supposed to feel (my libido singing)
Only god, only god knows
How you're supposed to feel

Started to feel bad when my brain fell to bits in my
hands
I'm lost and buried deep on planet number three
Reds and greens, popping pills in mouth everyday
I'm building rainbows, I feel magnifico

I am never gonna let you know
What's wrong with me emotionally
I am never gonna let you know
What's gone wrong with me

How you're supposed to feel (my libido singing)
How you're supposed to feel (my libido singing)
Only god, only god knows
How you're supposed to feel

And I can hear them say
I can hear them say...
If he can't figure it out
We can't figure him out

Oh yeah I feel addicted, oh yeah I've been a victim
Oh yeah I feel addicted
Someday I'm gonna do it again
