"Time Only Goes Forward"

Here i am thinking
maybe i'm not alone
maybe you are not either
there's so much to talk
there's so much that i've missed
but time only goes forward...
time only goes forward

Never it's to late
to say that i'm sorry
we wasted so much time
we wasted so many moments
and time only goes forward
time only goes forward...

Here i am now
and there you are
maybe we will never see each other
maybe we will never be the same
but there's just one thing
that time cannot change

you will always be my friend
