Something deadly walks again

You're sucking life outta daft holds using writing on walls.

Your covert peace hurts. I don't get it, we don't get it.

It's freezing over. We're stuck in a hole. There's no escape.

There's no escape,

It's freezing over. We're stuck in a hole. There's no escape.

It's freezing over. We're stuck in a hole. There's no escape...

there's no escape

Losing sense is a quick way to go; when all your time has been swallowed.

Black ring eyes and sunken cheeks, makes me wanna stay outside.

Wake up to bombs and gore, it's in the final stage.

We're climbing broken stairs; I don't get it, we don't get it.

It's freezing over. We're stuck in a hole. There's no escape.

There's no escape,

It's freezing over. We're stuck in a hole. There's no escape.

It's freezing over. We're stuck in a hole. There's no escape...

there's no escape

Losing sense is a quick way to go; when all your time has been swallowed.

Black ring eyes and sunken cheeks, makes me wanna stay outside.

i'm not bold enough to say it.

Something. Is. Deadly (Like it or not)

Something. Is. Deadly (Like it or not)
I'm not bold enough to say it. (Like it or not)
I'm not bold enough to say it. (Like it or not)

Losing sense is a quick way to go; when all your time
has been swallowed.
Black ring eyes and sunken cheeks, makes me wanna
stay outside.

Something deadly walks again.
Something deadly walks...
Something deadly walks this away and..
Something deadly, something's coming.
