"Spark"

Visit "[Spark](#)" on MotoLyrics.com

Here in the dark I sense the start of something
Beautiful but incomplete
I'm not the same
Somethin' has changed the heart in me
And I'm certain forever that we'll be together
I'll be singin' of Your love

Your love lights up the dark
Your love lights up the part of me
The spark in me You've always seen
Right here deep in my heart
Your love lights up the spark in me
The spark in me You've always seen

As time goes by
People may try to say
You're not really there for me
I live for You, they'll see Your love is true Lord, I know
We'll be together, standin' forever
An example of Your love

All around God's love came down
And shed His light for all to see
Showering love
Showering light
Showin' His love for all to see

It's the spark
In the heart of me
Your love set me free
Burnin' this fire in me
Your love came to me for eternity
The spark in me
You've always seen
He can set you free
