I'll just keep on fallin in love til i get it right  
Right now i'm like a woudned bird hungry for the sky  
But if i try my wings and try long enough  
I'm boung to learn to fly  
So i'll just keep on fallin in love til i get it right  
My door to love has opened out more times than in  
And i'm either fool or wise enough to open it again  
Cause i'll never know what's beyond the mountain til i  
reach  
The other side  
So i'll just keep on fallin in love til i get it right  
If practice makes perfect then i'm near bout as perfect  
as i'll ever  
Be in my life  
So i'll just keep on fallin in love til i get it right
