Yearning to be with the one I can't agree with yearning  
to hear you call my name  
Like a fool I left you and now I can't forget you please  
forgive me take me back again  
I'll never be the same without you darling you'll always  
be my everything  
Now I'm yearning to kiss you oh darling how I miss you  
I wish that we could make commance sweetheart  
[ steel ]  
Yearning to hold you and let my arms unfold you  
yearning to hear you call my name  
Yearning to kiss you oh darling how I'll miss you oh how  
I wish you felt the same  
I never knew how much you cared about me I thought  
you were foolin' me  
Oh how I wish you felt the same
