

## Fall, The "Barmy"

Out of England, I dream of it's green memory  
When I'm there I dwell on Saxony.  
In Turkey when I've been due to World War I  
Istanbul is the place 'cos of my birthday.  
I am barmy  
You were barmy  
I got everything  
I got everything I want except for hungry  
I got everything I want except for money.  
I've got the best round set aside for parties  
I'll have one when I've gone  
In fact, they said to, good one.  
I am barmy  
You were barmy  
Friends disintegrate but there are circles [?] [?]  
Residue after years of fab genius  
Is a pension for the jews  
and a medal from the company which I wiped my butt  
on  
and hung on a laburnum tree.

I am barmy  
You been barmy  
I am barmy  
You were barmy  
Just call me the first  
[repeat 10 times]  
I lay waiting hopefully on sloped grass grey  
I am barmy, feeling barmy  
A dramatic verse  
[repeat 3 times]  
The programs lot  
We break into tune  
Take and bring a word  
Ring a buzzer  
Take and bring a word ( " )  
A dramatic verse
