

Fall, The "Blood Outta Stone"

Visit "[Blood Outta Stone](#)" on MotoLyrics.com

Unfortunately, I'm coming from a bad end
And I'm destined for a bad end

But hanging around with you is like blood outta stone
Getting stuff outta youse is like blood outta stone
Blood outta stone

You're history
You've quit existation
You're green grub

And if I had any guts
I'd turn those money tables up
You dis-corporate bore
You make me tired to the bone
'Cause getting things outta you

When all your friends have dissolved
And you're yakking on the phone
You're techno-grounded
You're blood outta stone

Might appear deranged
But you're blood outta stone
You're mutton dressed as lamb
'Cause you're blood outta stone

At least I've got an aim, chick
Blood outta stone
But I'm working to an aim
