MES: It's good that one innit. What is it?

BES: It's something I'm working on

MES: Right

Couldn't handle, had to be
I turned on US TV
Early empires sleeping, Pacific time frame
Redhead skinny with back leg-brace
He danced behind a singer
Who sung just like god box

Chorus:
God box
Gimme god box
I say god box
God box, early
Tube stop, lazy
Cut off, early
God box
Gimme God box
I said
God box
Narco tube stops
Gimme god box

I was taken under the sea
The water coming in over me
I'm gulping water under the lake
Oh my god give me sleep, inundate

Chorus

Thousand evils indefinitely
Wonb shapes by a cold sea
At 9, UK time
We dropped off before god box documentary
