I'm a Mummy  
I scare people  
Look what happens when I walk up to somebody  
I'm a Mummy  
I was born one thousand nine hundred and fifty nine  
years ago  
Look what happens when I walk up to somebody  
I don't try to scare people  
I really came back to meet Paul McCartney  
But people run from me  
Watch what happens when I walk up to somebody  
I wish there was someone somewhere that wasn't  
scared of me  
I'm a Mummy  
Hide quick a Mummy  
Watch what happens when I walk up to somebody  
Aaaah!  
I don't try to scare people

But look what happens when I walk up to somebody  
I'm a Mummy  
Skinny Mummy  
You don't scare me  
What's happening here?  
You're not mad enough  
Skinny Mummy  
I'm a fifth element  
My daddy was a mummy too  
They were born one thousand and sixty six nine  
hundred years ago  
But look what happens when I walk up to somebody  
Mercy  
I'm outta here
