

## Fall, The "Just Step S'ways"

Visit "[Just Step S'ways](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When what used to excite you does not  
Like you've used up all your allowance of experiences  
Head filled with a mass of too-well-known people  
([This is an important aspect of Big Priest.  
His hypnotic induction process.  
His] commercial last chance)  
Just step sideways from this world today  
Just step sideways round this place today  
Just step sideways round this world today  
Just step outside this grubby place today  
Don't ever hit that vulgar cave  
The joker says: 'Go the opposite way'  
Just step outside this futurist world today  
Just step right round this...today  
The Eastern Bloc rocks to Elton John.  
So just step sideways from this place today  
To be a celebrity you've gotta eat the past, nowadays  
But who wants to be in a Hovis advert, anyway?  
Just step right round this futurist world today

Just step outside this grubby place today  
Just skip out miss the ice flicks of Bacardi  
Just step outside this future world today  
Don't let it beat ya  
Don't let it whip ya  
Jump on the back of nicotine  
Hit those lung worm back rays  
Just step outside this future world today  
Today X6  
..world today  
Just step sideways from this place today  
Jump on the back of nicotine  
[Hit those lung-worm back-rays]  
Just step outside this future world today  
Today X 4
