

## Fall, The "Second Dark Age"

Fat corpora's women  
[have to turn] a glass house  
And the Arabs have it made  
All their women in veils, eyes glazed  
Second Dark Age. Death of the USA.  
Return of the family.  
And the commune crapheads sit and whine  
While the commons near my birthplace is now a police  
college  
It's a second dark age.  
"Processed life starts monday or any other day. The  
city is dead.  
Plus [...]"  
I could join a pray-peace group  
Explain it all away  
Cause groups can change the world  
  
and meet Ms. Fjord and Benny.\*  
"Hi I am Benny. Peace trance.  
No Czechoslovak groups are barny fools"  
I'm mediocre anti-Jew  
And single people are screwed  
in the Second Dark Age  
I am Roman Totale, 17,  
the bastard offspring  
of Charles I and the Great God Pan.
