Not up to much
She's imitative
Her mind's in pieces
She said we can't all live
Her mind is in pieces
She said we can't all live in semi-detached houses

She's Oedipus
Not up to much
She gets the check
For car tax

She is Oedipus
She gets the check
For car tax
With barely a muttered
Thanks

Too much Warehouse shop
Too many fancy hats
Clothes imitation
A body map

Her mind's in pieces
She said we can't all live in semi-detached houses
She's Oedipus
She gets the check
For car tax
With barely a muttered thanks
Too much Warehouse shop
Too many fancy hats
Clothes imitation
Body map

Her mind's in pieces
Her ballroom days are deceased

Love's boat is smashed
Against existence
She got set walking
Walking irritant

Not up to much
Not up to much
And love's boots
Smashed against existence
Got set to walking
Irritant
She's imitative
She's not up to much
She's not up to much
She's not up to much
Not up to much
Not up to much
She's not up to much
