I send a request to your heart  
My hope is gone it tears my dreams apart  
I lay my head now down to sleep  
The time is now to find out what I need

I loose my way, I journey far  
On roads of heaven fills with love

My guardian angels preach to my heart  
Follow the moonbeam and the spark

Another time

Another place  
A better time to make it something true  
Another life  
Another love  
I wish my dreams come true, what can I do

I loose my way, I journey far  
On roads of heaven fills with love

My guardian angels preach to my heart  
Follow the moonbeam and the spark
