Stories of old  
And lost generations  
Tell about princes  
Saving the weak  
Community was  
People's salvation  
Creating the heroes  
Protecting the weak

All we own is this handsome world  
All we have is this fragile world  
All these treasures we're saving  
All our lives we'll stay craving

Stories of old  
For new generations  
Together we're stronger than war  
We'll climb every mountain  
We all have the same hot red blood  
Drink from the same fountain

All we own is this handsome world  
All we have is this fragile world  
All these treasures we're saving  
All our lives we'll stay craving

Doo doo doo  
Doo doo  
Doo doo doo...  
All we own is this handsome world  
All we have is this one small world
