"A Lighter Shade of Blue"

You walked out so many times and left me with a
worried mind
Confused alone not knowing what to do
Then you come back and I'd forgive and heartaches
end but mem'ries live
Each time I turn a lighter shade of blue

Cause I don't hurt the way I used to hurt don't cry the
way I used to cry
Could it be a sign I'm gettin' over you
There'll come a day it won't be long you'll come back
and find me gone
Each time I turn a lighter shade of blue each time I turn
a lighter shade of blue

(Instrumental)

I don't hurt the way I used to hurt don't cry the way I
used to cry
Could it be a sign I'm gettin' over you
There'll come a day it won't be long you'll come back
and find me gone
Each time I turn a lighter shade of blue
