If you're in a bind, with a troubled mind
I'm a mountain, come on and climb
Cause you looked to good to be so down
Don't take much dream to turn it all around

Come with me, come with me
Feeling's free just come with me (come with me)
We'll get on a cloud, ride it high
Say hello sun, as we sail bye

(Instrumental)

I'll take you where, you've never been before
Once we're there, you'll cry for more
If it's dark in your world, come walk in mine
My love's a light babe, it's on all the time

Come with me, come with me
Feeling's free just come with me (come with me)
We'll get on a cloud, ride it high
Say hello sun, as we sail bye

Come with me, come with me
Feeling's free just come with me (come with me)
We'll get on a cloud, ride it high
Say hello sun, as we sail bye
