Darling I've loved you all of these years  
And you've never once caused the heartbreak or tear  
Without you to love me oh what would I do it's been a  
beautiful life loving you  
And darling I love you more every day and I'll stand  
beside you each step of the way  
You've made it heaven my dreams have come true it's  
been a beautiful life loving you  
If ever I need you you're always there life is much  
sweeter knowing you care  
Always together till life is through it's been a beautiful  
life loving you
