Well, just across the street
From our little three room shack
There's a mansion that reaches the stars

With at least a dozen rooms
And a great big swimmin pool
Two sport cars and three long Cadillacs

And the only thing I own
Is a broken down old Ford
Half the time it won't even start

But you won't hear us fightin
At four in the mornin
Callin names to break each other's hearts

So they can have it
We don't need it
Let them keep it and call it their own

Livin that kind of life
Is not for you and me
We got love and love is all we need

I've never tired of wearin
That same old shaggy dress
One I bought down at the dollar store

Well, if I watch ev'ry dime I spend
And I save ev'ry stamp, I can
Just get the things I know we can afford

And ev'ry afternoon
I sit upon the porch

Watch them as they pass through those gates

I wonder what it's like
To be a fancy lady
But I'd always have a smile on my face

So, they can have it
We don't need it
Let them keep it and call it their own

Livin that kind of life
Is not for you and me
We got love and love is all we need

We got love and love is all we need.
