I just love that good old gospel singing  
'I'll Fly Away' is my favorite song  
I just love that good old time religion  
This old world has gone without it much too long

Oh, how I love to sing and tell  
When they ring those golden bells  
And I just can't stand in one place  
When they sing 'Amazing Grace'

I just love that good old country preaching  
This old world has gone without it much too long

Yes, I love them good old fashioned gathering  
Where all of God's children came to pray  
And oh, how I really miss those old brush arbors  
How I wish we had more of these days today

Oh, how I love to sing and tell
