Each time you touch me that little tingle goes up and  
down my spine  
I feel a trembling on my lips when you press yours to  
mine  
And these butterflies won't let me eat at suppertime  
have I lost my mind or is it love

The chill of winter goes up and down me but it's still  
summertime  
And why am I walking way up on this cloud so high  
Have I've grown wings to fly or is it love  
And why am I walking...
