Somebody new is loving you  
And your gonna go with her I know  
But there'll be no tears running down my face  
Go on with h--er you can be replaced

Take back your ring and everything  
Let's both forget we even met  
There is no love time can't erase  
The minute you're go, you can be replaced

You can be replaced by lonely days  
By sleepless nights and all the rest  
I'll miss you so but none the less  
You can be replaced by loneliness  
You can be replaced by loneliness
