Every time I see you juts creeping
For working out....we're keeping
Cause of what I'm always believing
It seems that you're always leaving me all right
All the... we didn't try
Cause it will do you, do you some good!

Chorus:
You've never should've been there,
Oh no!
You've never should've been there,
Oh no!

..so old
Same words dreaming...
and now that we all are dreaming
It seems that you're leaving me all right
All the... we didn't try
Cause it will do you, do you some good!

Chorus: (x2)
You've never should've been there,
Oh no!
You've never should've been there,
Oh no!
