We been walking with the beach cruiser  
Beach cruiser, stacking on the handlebars  
You could ride wid me

[Verse 1 - Famlay]

Look, I'mma be 100 with you  
If I can't get no money with you  
I ain't running with you, I ain't even come and get you  
I ain't being funny with you  
Can't do nothing with you  
Let your other cousins come and get you  
Cause behind my nickle, look, I'mma find my pistols  
And shoot my way up out the courtroom like I'm Ryan  
Nicols  
Look, it's a blessing from the Heavens if I ain't twist you  
Normally, the passenger seat'll be dying with you  
Look at you: when this is the issue  
When it's with the tissue, bullets hit the whistle  
Let the position fix you  
Look at my missle inside my pillow  
Cause I know that my flow is like white folk's assault  
rifles  
Sometimes I'm Michael Psycho  
Sometimes I'm Michael Michael  
I'm not no psycho, no this not no fucking typo  
I type on iPhones: you vs me is a no-no  
?

[Verse 2 - Famlay]

See all that man stay talkin bout?  
They never block him out, they never knock him out  
Singles keep on poppin out  
See what people talkin bout?  
See what he's talkin bout, see what she talkin bout  
See why BO poppin out

They mic on the right song my right palm  
Like lightning on it. My right arm is napalm  
My icon ?, skate or your bike on  
Your fuck on, your ? on  
Then bygones be bygones  
C'mon: you can ride, you can go, you can slide  
You can roll, you can fly, you can float  
My tires by the spokes, it's a ride if you smoke  
We can ride to the store  
Meet up: time to re-up, break a lead up  
Eat up, light the weed up, feed the beat up  
Feet up, put your seat up, ? your Visa  
Hey now: this is a teaser
