chorus

Look into my eyes
Tell me what you see
When you look at me
You see your friend in me
When you look at me
You see your enemy
What you pretend to be
I am ..
Look into my eyes
Tell me what you see
When you look at me
You see your friend in me
When you look at me
You see your enemy
What you pretend to be
I am ..

Cruising to the .. let me just get a piece of my
Got my favorite girl with me yeah I can't deny
I don't .. a lot of shit and I am keeping mine
You can try to take this but I am keeping mine
I ain't a .. check my resume
I , on my middle name owe his moment
They see me in the streets .. none but the truth
So they got to believe you
I swear under oath I won't leave you
And I promise I will lead you
Straight to the valley .. just keep your eyes ..
As we cover the whole world ,

chorus

Look into my eyes
Tell me what you see
When you look at me
You see your friend in me
When you look at me
You see your enemy
What you pretend to be

When you look at me
You see your friend in me
When you look at me

See your family cry but that's ,
